### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dov Rosenfeld on 10/26/2007.

The application has been amended as follows:

In claim 1, the recitation in the last two lines "wherein at least ... log-scale sample point" has been changed to -- wherein at least two associated groups of sample points for at least two respective pluralities of filter coefficients for at least two respective successive filter stages have one or more sample points in common --.

In claim 9, the recitation in the last two lines "wherein at least ... log-scale sample point" has been changed to -- wherein at least two associated groups of sample points for at least two respective pluralities of filter coefficients for at least two respective successive filter stages have one or more sample points in common --.

In claim 17, the recitation in the last two lines "wherein at least ... log-scale sample point" has been changed to -- wherein at least two associated groups of sample points for at least two respective pluralities of filter coefficients for at least two respective successive filter stages have one or more sample points in common --.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest a determination of filter coefficients for filter stages in a multirate digital filter to achieve a desired filter response as recited in the claims, including deriving the sample points of the first series from a plurality of log-scale sample points, and at least two associated groups of sample points for at least two respective pluralities of filter coefficients for at least two respective successive filter stages have one or more sample points in common.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuong D. Ngo whose telephone number is (571) 272-3731. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Meng-Ai An can be reached on (571) 272-3756. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
